A

Abdominal imaging
Accuracy of breath-hold MRI in preoperative staging of organ-confined renal cell carcinoma, Kamel IR et al, 327
Acinar cell carcinoma of the pancreas: clinical and CT manifestations, Chiou Y-Y et al, 180
Atypical cases of gallstone ileus evaluated with multidetector CT, Reimann AJ et al, 523
Case report: Annular pancreas: Emphasis on MR cholangiopancreatography findings, Choi J-Y et al, 528
Case report: Encapsulated fat necrosis mimicking abdominal liposarcoma: CT findings, Takao H et al, 193
Case report: Intrahepatic portal-to-portal venous shunts in cirrhosis: A potential mimic of hepatocellular carcinoma, Lutz J et al, 520
Case report: MR cholangiography with mangafodipir trisodium (Teslascan) to evaluate bile duct leaks after T-tube removal in liver transplantation, Akin EB et al, 613
Case report: Multidetector CT imaging of aortoenteric fistula, Perks FJ et al, 343
Case report: Positron emission tomography–CT imaging characteristics of an inferior vena cava tumor thrombus with magnetic resonance imaging correlation, Rydberg JN et al, 517
Case report: Primary peritoneal clear cell carcinoma, Hama Y et al, 617
Combination of extremity CT angiography and abdominal imaging in patients with musculoskeletal tumors, Karcaaltincaba M et al, 273
Comparison of test-injection method and fixed-time method for depiction of hepatocellular carcinoma using dynamic steady-state free precession MRI, Shinozaki K et al, 628
CT and MRI findings in cases of dermoid cyst coesisting with surface epithelial tumors in the same ovary, Okada S et al, 169
CT and MRI of inferior vena caval thrombus associated with metastasis to the kidney, Fraser ET et al, 131
CT angiography demonstration of portal vein anomaly type V, Balaji MCR et al, 348
CT colonography: Feasibility of computer-aided polyp detection in a "first reader" paradigm, Mani A et al, 318
CT features of portal hypertensive gastropathy, Ishihara K et al, 833
CT of corpus luteal cysts, Borders RJ et al, 340
CT of gastrointestinal stromal tumors with pathology correlation, Horton KM et al, 812
Diagnostic accuracy of staging renal cell carcinomas using multidetector-row CT and MRI: A prospective study with histopathologic correlation, Hallscheidt PJ et al, 333
Differentiation of adrenal adenomas from metastases with unenhanced CT, Gufler H et al, 819
Differentiation of anal sphincters with high-resolution MRI using contrast-enhanced fast low-angle shot 3-dimensional sequences, Schaefer O et al, 174
Evaluation of positron emission tomography with tracer 18-fluorodeoxyglucose in addition to MRI in the diagnosis of ovarian cancer in selected women after ultrasonography, Kawahara K et al, 505
Evaluation of renovascular hypertension: Comparison of functional MRI and contrast-enhanced MRA with a routinely performed renal scintigraphy and DSA, Hackländer T et al, 824
Fabry disease: Renal sonographic and magnetic resonance imaging findings in affected males and carrier females with the classic and cardiac variant phenotypes, Glass RBJ et al, 158
Hemodynamic and morphologic changes after portal vein embolization: Differential effects in central and peripheral zones in the liver on multiphasic CT, Kobayashi S et al, 805
Hepatic involvement in hereditary hemorrhagic telangiectasia: Helical CT features in 24 consecutive patients, Ravard G et al, 488
Imaging of the various continent urinary diversions after cystectomy, Sung DJ et al, 299
Local staging of rectal cancer: Assessment with double-contrast multislice Ct and transrectal ultrasound, Kulinna C et al, 123
Magnetic resonance imaging of bowel ischemia induced by ligation of superior mesenteric artery and vein in a cat model, Kim MY et al, 187
MRI of ovarian cancer arising in endometriomas, Wu TT et al, 837
Multidetector-row CT angiography for planning intra-arterial chemotherapy pump placement in patients with colorectal metastases to the liver, Sahani DV et al, 478
Natural history of pancreatic intraductal papillary mucinous tumor of branch duct type: Follow-up study by MR cholangiopancreatography, Irie H et al, 117
Pictorial essay: Complications of pyogenic hepatic abscess: CT and clinical features, Yang DM et al, 311
Pictorial essay: Concurrent focal hepatic and splenic lesions: A pictorial guide to differential diagnosis, Bean MJ et al, 605
Pictorial essay: CT urography with 16-channel multidetector CT: A pictorial review, Kawamoto S et al, 581
Pictorial essay: Imaging of gastrointestinal stromal tumors, Kim H-C et al, 596
Pictorial essay: Masses and pseudomasses of the kidney: Imaging spectrum on MR, Zhang J et al, 588
Pictorial essay: Multidetector-row CT and 3-dimensional CT of small bowel neoplasms: Current concept in diagnosis, Horton KM et al, 106
Pictorial essay: Patterns of collateral pathways in extrahepatic portal hypertension as demonstrated by multidetector row CT and advanced image processing, Kamel IR et al, 469
Polypoid and papillary cystitis mimicking a large transitional carcinoma in a patient without a history of catheterization: CT and MRI findings, Kim SH et al, 485
Preoperative imaging in adult-to-adult living related liver transplant donors: What surgeons want to know, Limanond P et al, 149
Preoperative MRI staging of uterine cervical carcinoma: Results of prospective study, Choi SH et al, 620
Selective intra-arterial 3-dimensional CT angiography for preoperative evaluation of nephron-sparing surgery, Ueda T et al, 496
Abdominal liposarcoma
Case report: Encapsulated fat necrosis mimicking abdominal liposarcoma: CT findings, Takao H et al, 193
Abdominal retained surgical sponge
Positron emission tomography/CT appearance of an abdominal retained surgical sponge, Ghersin E et al, 840
Abscess, hepatic
Pictorial essay: Complications of pyogenic hepatic abscess: CT and clinical features, Yang DM et al, 311
Accentuated Virchow-Robin spaces
Accentuated Virchow-Robin spaces in the centrum semiovale in children with autistic disorder, Taber KH et al, 263
Aciduria
Case report: Glutaric aciduria type I: Value of diffusion-weighted MRI for diagnosing acute striatal necrosis, Elster AW, 98
Acinar cell carcinoma of the pancreas
Acinar cell carcinoma of the pancreas: clinical and CT manifestations, Chiou Y-Y et al, 180
Acromioclavicular joint
Pictorial essay: Isolated acromioclavicular joint pathology in the symptomatic shoulder on MRI, Gordon BH et al, 215
Acute anterior cruciate ligament tears
MR diagnosis of meniscal tears in patients with acute anterior cruciate ligament tears, Jee W-H et al, 402
Acute respiratory distress syndrome
Pictorial essay: Acute respiratory distress syndrome: CT findings and their application to mechanical ventilation therapy, Kim HY et al, 686
Acute respiratory syndrome
Severe acute respiratory syndrome: Thin-section CT features, temporal changes, and clinicoradiologic correlation during the convalescent period, Wong K-t et al, 791
Acute striatal necrosis
Case report: Glutaric aciduria type I: Value of diffusion-weighted MRI for diagnosing acute striatal necrosis, Elster AW, 98

© 2004 Lippincott Williams & Wilkins

Acute vertebral fractures
Value of multiplanar reformations (MPR) in multidetector CT (MDCT) of acute vertebral fractures: Do we still have to read the transverse images? Begemann PGC et al, 572
Adenoma
Differentiation of adrenal adenomas from metastases with unenhanced CT, Gufler H et al, 819
Adenoma, pleomorphic
Inter- and intratumoral variability in MRI of pleomorphic adenoma: an attempt to interpret the variable MR findings, Motoori K et al, 233
Adenopathy
Pericardial "sleeve" recess of right inferior pulmonary vein mimicking adenopathy: CT findings, Truong MT et al, 361
Adrenal adenoma
Differentiation of adrenal adenomas from metastases with unenhanced CT, Gufler H et al, 819
Adult-to-adult living related liver transplant donors
Preoperative imaging in adult-to-adult living related liver transplant donors: What surgeons want to know, Limanond P et al, 149
Aerodigestive tract, upper
High incidence of chest malignancy detected by FDG PET in patients suspected of recurrent squamous cell carcinoma of the upper aerodigestive tract, Perlow A et al, 704
Agnosia
Case report: Visual object agnosia and pure word alexia: Correlation of functional MRI and lesion localization, Salvan CV et al, 63
Airways
Pictorial essay: *Aspergillus* infection of the airways: CT and pathologic findings, Franquet T et al, 10
Alexia
Case report: Visual object agnosia and pure word alexia: Correlation of functional MRI and lesion localization, Salvan CV et al, 63
Amyloidosis
Amyloidosis and lymphoproliferative disease in Sjögren syndrome: Thin-section CT findings and histopathologic comparisons, Jeong YJ et al, 777
Anal sphincters
Differentiation of anal sphincters with high-resolution MRI using contrast-enhanced fast low-angle shot 3-dimensional sequences, Schaefer O et al, 174
Anatomy, graphic. *See* Graphic anatomy.
Angiography
Anomalous origin of a posterior descending artery from the right pulmonary artery: Report of a rare case diagnosed by multidetector CT angiography, Lessick J et al, 859
Clinical and experimental investigation of pseudoaneurysm in the anterior communicating artery area on 3-dimensional time-of-flight cerebral MR angiography, Chung T-S et al, 414
Combination of extremity CT angiography and abdominal imaging in patients with musculoskeletal tumors, Karcaaltincaba M et al, 273
CT angiography demonstration of portal vein anomaly type V, Balaji MCR et al, 348
Evaluation of renovascular hypertension: Comparison of functional MRI and contrast-enhanced MRA with a routinely performed renal scintigraphy and DSA, Hackländer T et al, 824
Multidetector-row CT angiography for planning intra-arterial chemotherapy pump placement in patients with colorectal metastases to the liver, Sahani DV et al, 478
Origin of high signal intensity in the cavernous sinus in MR angiographic source images: Correlation between MR and conventional angiography, Tanaka H et al, 729
Selective intra-arterial 3-dimensional CT angiography for preoperative evaluation of nephron-sparing surgery, Ueda T et al, 496
Animal imaging
Evaluation of the quantitative capability of a high-resolution positron emission tomography scanner for small animal imaging, Fahey FH et al, 843
Annular pancreas
Case report: Annular pancreas: Emphasis on MR cholangiopancreatography findings, Choi J-Y et al, 528
Anterior communicating artery
Clinical and experimental investigation of pseudoaneurysm in the anterior communicating artery area on 3-dimensional time-of-flight cerebral MR angiography, Chung T-S et al, 414
Anterior cruciate ligament tears
MR diagnosis of meniscal tears in patients with acute anterior cruciate ligament tears, Jee W-H et al, 402
Aorta
Time-resolved 3-dimensional velocity mapping in the thoracic aorta: Visualization of 3-directional blood flow patterns in healthy volunteers and patients, Markl M et al, 459
Aortic stent graft implantation
Assessment of automatic vessel tracking techniques in preoperative planning of transluminal aortic stent graft implantation, Boll DT et al, 278
Aortoenteric fistula
Case report: Multidetector CT imaging of aortoenteric fistula, Perks FJ et al, 343
Apparent diffusion coefficient calculation
The added value of the apparent diffusion coefficient calculation to MRI in the differentiation and grading of malignant brain tumors, Bulakbasi N et al, 736
Arterial input function
Effects of metabolite correction for arterial input function on quantitative receptor images with ^{11}C-flumazenil in clinical positron emission tomography studies, Okazawa H et al, 428
Artery, anterior communicating
Clinical and experimental investigation of pseudoaneurysm in the anterior communicating artery area on 3-dimensional time-of-flight cerebral MR angiography, Chung T-S et al, 414
Artery, middle cerebral
Hyperacute extensive middle cerebral artery territory infarcts: Role of CT in predicting outcome, Lam WW-m et al, 650
Artery, pulmonary. *See* Pulmonary artery.
Artery, right coronary
Anomalous origin of right coronary artery: Diagnosis and dynamic evaluation with multidetector CT, Ghersin E et al, 293
Artery, right pulmonary
Anomalous origin of a posterior descending artery from the right pulmonary artery: Report of a rare case diagnosed by multidetector CT angiography, Lessick J et al, 859
Artery, superior mesenteric
MRI of bowel ischemia induced by ligation of superior mesenteric artery and vein in a cat model, Kim MY et al, 187
Arthroscopy
Bare area of the glenoid: MR appearance with arthroscopic correlation, Ly JQ et al, 229
MR characteristics of medial plica of the knee: Correlation with arthroscopic resection, Boles CA et al, 397
Aspergillus infection of the airways
Pictorial essay: *Aspergillus* infection of the airways: CT and pathologic findings, Franquet T et al, 10
Autistic disorder
Accentuated Virchow-Robin spaces in the centrum semiovale in children with autistic disorder, Taber KH et al, 263
Automatic segmentation of x-ray CT images
Characterization of small nodules by automatic segmentation of x-ray CT images, Tao P et al, 372
Automatic vessel tracking techniques
Assessment of automatic vessel tracking techniques in preoperative planning of transluminal aortic stent graft implantation, Boll DT et al, 278

B

Bilateral mesial temporal sclerosis
Case report: Bilateral mesial temporal sclerosis associated with kernicterus, Paksoy Y et al, 269
Bile duct leaks
Case report: MR cholangiography with mangafodipir trisodium (Teslascan) to evaluate bile duct leaks after T-tube removal in liver transplantation, Akin EB et al, 613
Blood flow patterns
Time-resolved 3-dimensional velocity mapping in the thoracic aorta: Visualization of 3-directional blood flow patterns in healthy volunteers and patients, Markl M et al, 459
Bone mineral density
Fractional quantitative CT for bone mineral density evaluation: Accuracy, precision, and comparison to quantitative CT, Lee J et al, 566
Bounce, septal
Septal bounce in constrictive pericarditis: Diagnosis and dynamic evaluation with multidetector CT, Ghersin E et al, 676

© 2004 Lippincott Williams & Wilkins

Bowel ischemia
MRI of bowel ischemia induced by ligation of superior mesenteric artery and vein in a cat model, Kim MY et al, 187
Bowel neoplasms
Pictorial essay: Multidetector-row CT and 3-dimensional CT imaging of small bowel neoplasms: Current concept in diagnosis, Horton KM et al, 106
Brain
Brain gamma-aminobutyric acid levels are decreased in patients with phantageusia and phantosmia demonstrated by MR spectroscopy, Levy LM et al, 721
Brain anomalies
Prenatal MRI of rhombencephalosynapsis and associated brain anomalies: Report of 3 cases, Napolitano M et al, 763
Brain lesions, ischemic
Case report: Prenatal MRI evaluation of ischemic brain lesions in the survivors of monochorionic twin pregnancies: Report of 3 cases, Righini A et al, 87
Brain tumors
The added value of the apparent diffusion coefficient calculation to MRI in the differentiation and grading of malignant brain tumors, Bulakbasi N et al, 736
Case report: Combined MR tractography and functional MRI in evaluation of brain tumors involving the motor system, Parmar H et al, 551
Breast cancer
Three-dimensional CT lymphography–guided identification of sentinel lymph nodes in breast cancer patients using subcutaneous injection of nonionic contrast medium: A clinical trial, Minato M et al, 46
Breast imaging
Case report: Pitfalls of the lactating breast on CT, Brook OR et al, 647
Dynamic breast MRI: Effect of changing the region of interest on early enhancement using 2D and 3D techniques, Sardanelli F et al, 642
Imaging findings in idiopathic granulomatous mastitis: A review with emphasis on MRI, Kocaoglu M et al, 635
Breast implants
Case report: Retromammary fluid collection as a late complication of breast implants: MRI findings, Pineda V et al, 386
Breast MRI
Dynamic breast MR imaging: Effect of changing the region of interest on early enhancement using 2D and 3D techniques, Sardanelli F et al, 642
Breath-hold MRI
Accuracy of breath-hold MRI in preoperative staging of organ-confined renal cell carcinoma, Kamel IR et al, 327
Bronchobiliary fistula
Case report: Bronchobiliary fistula after liver transplantation, Yeatman CF et al, 717
Bronchoscopy
Tracheobronchopathia osteochondroplastica in a patient with silicosis: CT, bronchoscopy, and pathology findings, Pinheiro GA et al, 802
Bursa, infrapatellar
The deep infrapatellar bursa: Prevalence and morphology on routine MRI of the knee, Aydingoz U et al, 557
Bursitis, scapulothoracic
Clinical and imaging features of distended scapulothoracic bursitis: spontaneously regressed pseudotumoral lesion, Higuchi T et al, 223
B-waves
B-waves in cerebral and spinal cerebrospinal fluid pulsation measurement by MRI, Friese S et al, 255

C

Calcific tendinosis
Pictorial essay: Calcific tendinosis and periarthritis: Classic MRI appearance and associated findings, Chung CB et al, 390
Calcification
Coronary artery calcification scoring by prospectively triggered multidetector-row CT: Is it reproducible? Lawler LP et al, 40
Cancer, breast
Three-dimensional CT lymphography–guided identification of sentinel lymph nodes in breast cancer patients using subcutaneous injection of nonionic contrast medium: A clinical trial, Minato M et al, 46
Cancer, lung
Progression of focal pure ground-glass opacity detected by low-dose helical CT screening for lung cancer, Kakinuma R et al, 17
Cancer, ovarian
Evaluation of positron emission tomography with tracer 18-fluorodeoxyglucose in addition to MRI in the diagnosis of ovarian cancer in selected women after ultrasonography, Kawahara K et al, 505
MRI of ovarian cancer arising in endometriomas, Wu TT et al, 837
Cancer, rectal
Local staging of rectal cancer: Assessment with double-contrast multislice CT and transrectal ultrasound, Kulinna C et al, 123
Cancer. *See also* Carcinoma.
Cancer, staging of. *See* Staging of cancer.
Carcinoma
Polypoid and papillary cystitis mimicking a large transitional carcinoma in a patient without a history of catheterization: Computed tomography and magnetic resonance findings, Kim SH et al, 485
Carcinoma, clear cell
Case report: Primary peritoneal clear cell carcinoma, Hama Y et al, 617
Carcinoma, hepatocellular. *See* Hepatocellular carcinoma.
Carcinoma, pancreatic
Acinar cell carcinoma of the pancreas: clinical and CT manifestations, Chiou Y-Y et al, 180
Carcinoma, renal cell
Accuracy of breath-hold MRI in preoperative staging of organ-confined renal cell carcinoma, Kamel IR et al, 327
Carcinoma. *See also* Cancer.
Carcinoma, squamous cell
High incidence of chest malignancy detected by FDG PET in patients suspected of recurrent squamous cell carcinoma of the upper aerodigestive tract, Perlow A et al, 704
Carcinoma, staging of. *See* Staging of carcinoma.
Carcinoma, uterine cervical
Preoperative MRI staging of uterine cervical carcinoma: Results of prospective study, Choi SH et al, 620
Cardiac gated quantitative CT
Measurement of trabecular bone mineral density in the thoracic spine using cardiac gated quantitative CT, Lenchik L et al, 134
Cardiac imaging
Anomalous origin of a posterior descending artery from the right pulmonary artery: Report of a rare case diagnosed by multidetector CT angiography, Lessick J et al, 859
Cardiac lipoma and lipomatous hypertrophy of the interatrial septum: Cardiac MRI findings, Salanitri JC et al, 854
Comparison of electron beam CT with MRI in assessment of right ventricular volumes and function, Elgeti T et al, 679
Primary cardiac lymphoma demonstrated by delayed contrast-enhanced MRI, Kubo S et al, 851
Septal bounce in constrictive pericarditis: Diagnosis and dynamic evaluation with multidetector CT, Ghersin E et al, 676
Cardiac lipoma
Cardiac lipoma and lipomatous hypertrophy of the interatrial septum: Cardiac MRI findings, Salanitri JC et al, 854
Cardiac lymphoma
Primary cardiac lymphoma demonstrated by delayed contrast-enhanced MRI, Kubo S et al, 851
Cardiovascular imaging
Anomalous origin of right coronary artery: Diagnosis and dynamic evaluation with multidetector CT, Ghersin E et al, 293
Assessment of automatic vessel tracking techniques in preoperative planning of transluminal aortic stent graft implantation, Boll DT et al, 278
Assessment of myocardial infarctions using multidetector-row CT, Nikolaou K et al, 286
Case report: CT demonstration of lipomatous metaplasia of the left ventricle following myocardial infarction, Winer-Muram HT et al, 455
Combination of extremity CT angiography and abdominal imaging in patients with musculoskeletal tumors, Karcaaltincaba M et al, 273
Reliability of differentiating human coronary plaque morphology using contrast-enhanced multislice spiral CT: A comparison with histology, Schroeder S et al, 449
Time-resolved 3-dimensional velocity mapping in the thoracic aorta: Visualization of 3-directional blood flow patterns in healthy volunteers and patients, Markl M et al, 459
Carpal tunnel syndrome
Potential MR signs of recurrent carpal tunnel syndrome: Initial experience, Wu H-TH et al, 862

© 2004 Lippincott Williams & Wilkins

Case report
Case report: Annular pancreas: Emphasis on MR cholangiopancreatography findings, Choi J-Y et al, 528
Case report: Bilateral mesial temporal sclerosis associated with kernicterus, Paksoy Y et al, 269
Case report: Combined MR tractography and functional MRI in evaluation of brain tumors involving the motor system, Parmar H et al, 551
Case report: CT demonstration of lipomatous metaplasia of the left ventricle following myocardial infarction, Winer-Muram HT et al, 455
Case report: Encapsulated fat necrosis mimicking abdominal liposarcoma: CT findings, Takao H et al, 193
Case report: Glutaric aciduria type I: Value of diffusion-weighted MRI for diagnosing acute striatal necrosis, Elster AW, 98
Case report: Intrahepatic portal-to-portal venous shunts in cirrhosis: A potential mimic of hepatocellular carcinoma, Lutz J et al, 520
Case report: Maple syrup urine disease: Diffusion-weighted and diffusion-tensor MRI findings, Parmar H et al, 93
Case report: MR cholangiography with mangafodipir trisodium (Teslascan) to evaluate bile duct leaks after T-tube removal in liver transplantation, Akin EB et al, 613
Case report: MRI in prenatal diagnosis of dacryocystocele: Report of 3 cases, Bianchini E et al, 422
Case report: Multidetector CT imaging of aortoenteric fistula, Perks FJ et al, 343
Case report: Niemann-Pick disease: High-resolution CT findings in two siblings, Rodrigues R et al, 52
Case report: Pitfalls of the lactating breast on CT, Brook OR et al, 647
Case report: Positron emission tomography–CT imaging characteristics of an inferior vena cava tumor thrombus with MRI correlation, Rydberg JN et al, 517

Pericardial "sleeve" recess of right inferior pulmonary vein mimicking adenopathy: CT findings, Truong MT et al, 361
Pictorial essay: Acute respiratory distress syndrome: CT findings and their application to mechanical ventilation therapy, Kim HY et al, 686
Pictorial essay: *Aspergillus* infection of the airways: CT and pathologic findings, Franquet T et al, 10
Pictorial essay: Collagen vascular disease–related lung disease: High-resolution CT findings based on the pathologic classification, Tanaka N et al, 351
Pictorial essay: Collateral pathways in thoracic central venous obstruction: Three-dimensional display using direct spiral CT venography, Kim H-C et al, 24
Primary mediastinal lymphoma: Characteristic features of the various histological subtypes on CT, Tateishi U et al, 783
Progression of focal pure ground-glass opacity detected by low-dose helical CT screening for lung cancer, Kakinuma R et al, 17
Pulmonary dirofilariasis: CT findings and correlation with pathologic features, Oshiro Y et al, 797
Risk factor of radiation pneumonitis: Assesssment with velocity-encoded cine MRI of pulmonary artery, Muryama S et al, 204
Severe acute respiratory syndrome: Thin-section CT features, temporal changes, and clinicoradiologic correlation during the convalescent period, Wong K-t et al, 791
Solitary pulmonary nodules: A comparative study evaluated with contrast-enhanced dynamic MRI and CT, Kim JH et al, 767
Spirometric-gated CT quantitative evaluation of lung emphysema in chronic obstructive pulmonary disease: A comparison of 3 techniques, Orlandi I et al, 437
Thoracic manifestations of myeloperoxidase-antineutrophil cytoplasmic antibody (MPO-ANCA)–related disease: CT findings in 51 patients, Ando Y et al, 710
Three-dimensional CT lymphography–guided identification of sentinel lymph nodes in breast cancer patients using subcutaneous injection of nonionic contrast medium: A clinical trial, Minato M et al, 46
Tracheobronchopathia osteochondroplastica in a patient with silicosis: CT, bronchoscopy, and pathology findings, Pinheiro GA et al, 802
Value of volumetric data acquisition in expiratory high-resolution CT of the lung, Nishino M et al, 209
Thoracic spine
Measurement of trabecular bone mineral density in the thoracic spine using cardiac gated quantitative CT, Lenchik L et al, 134
Three-dimensional CT
Pictorial essay: Multidetector-row CT and 3-dimensional CT imaging of small bowel neoplasms: Current concept in diagnosis, Horton KM et al, 106
Selective intra-arterial 3-dimensional CT angiography for preoperative evaluation of nephron-sparing surgery, Ueda T et al, 496
Three-dimensional CT lymphography
Three-dimensional CT lymphography–guided identification of sentinel lymph nodes in breast cancer patients using subcutaneous injection of nonionic contrast medium: A clinical trial, Minato M et al, 46
Three-dimensional display
Pictorial essay: Collateral pathways in thoracic central venous obstruction: Three-dimensional display using direct spiral CT venography, Kim H-C et al, 24
Three-dimensional MRI
Differentiation of anal sphincters with high-resolution MRI using contrast-enhanced fast low-angle shot 3-dimensional sequences, Schaefer O et al, 174
Three-dimensional time-of-flight cerebral MR angiography
Clinical and experimental investigation of pseudoaneurysm in the anterior communicating artery area on 3-dimensional time-of-flight cerebral MR angiography, Chung T-S et al, 414
Three-dimensional velocity mapping
Time-resolved 3-dimensional velocity mapping in the thoracic aorta: Visualization of 3-directional blood flow patterns in healthy volunteers and patients, Markl M et al, 459
Three-directional blood flow patterns
Time-resolved 3-dimensional velocity mapping in the thoracic aorta: Visualization of 3-directional blood flow patterns in healthy volunteers and patients, Markl M et al, 459
Thrombus
Case report: Positron emission tomography–CT imaging characteristics of an inferior vena cava tumor thrombus with MRI correlation, Rydberg JN et al, 517
Thrombus, inferior vena caval
CT and MRI of inferior vena caval thrombus associated with metastasis to the kidney, Fraser ET et al, 131
Time-of-flight cerebral MR angiography
Clinical and experimental investigation of pseudoaneurysm in the anterior communicating artery area on 3-dimensional time-of-flight cerebral MR angiography, Chung T-S et al, 414
Time-resolved 3-dimensional velocity mapping
Time-resolved 3-dimensional velocity mapping in the thoracic aorta: Visualization of 3-directional blood flow patterns in healthy volunteers and patients, Markl M et al, 459
Tomography, computed. *See* Computed tomography (CT).
Tomography, positron emission. *See* Positron emission tomography (PET).
Trabecular bone mineral density
Measurement of trabecular bone mineral density in the thoracic spine using cardiac gated quantitative CT, Lenchik L et al, 134
Tracheobronchopathia osteochondroplastica
Tracheobronchopathia osteochondroplastica in a patient with silicosis: CT, bronchoscopy, and pathology findings, Pinheiro GA et al, 802
Tracography
Topography of the human corpus callosum using diffusion tensor tractography, Abe O et al, 533
Tractography
Case report: Combined MR tractography and functional MRI in evaluation of brain tumors involving the motor system, Parmar H et al, 551
Transaxial imaging
Evaluation of small pulmonary arteries by 16-slice multidetector CT: Optimum slab thickness in condensing transaxial images converted into maximum intensity projection images, Jeong YJ et al, 195
Transluminal aortic stent graft implantation
Assessment of automatic vessel tracking techniques in preoperative planning of transluminal aortic stent graft implantation, Boll DT et al, 278
Transplant, liver. *See* Liver transplant.
Transrectal ultrasound
Local staging of rectal cancer: Assessment with double-contrast multislice CT and transrectal ultrasound, Kulinna C et al, 123
Transverse CT
Accuracy and time efficiency for the detection of thoracic cage fractures: Volume rendering compared with transverse CT images, Alkadhi H et al, 378
Trauma, elbow
The fat pad sign following elbow trauma in adults: Its usefulness and reliability in suspecting occult fracture, O'Dwyer H et al, 562
T-tube
Case report: MR cholangiography with mangafodipir trisodium (Teslascan) to evaluate bile duct leaks after T-tube removal in liver transplantation, Akin EB et al, 613
Tuberculosis
Multidrug-resistant tuberculosis *versus* drug-sensitive tuberculosis in human immunodeficiency virus-negative patients: CT features, Kim H-C et al, 366
Tumor, brain
The added value of the apparent diffusion coefficient calculation to MRI in the differentiation and grading of malignant brain tumors, Bulakbasi N et al, 736
Case report: Combined MR tractography and functional MRI in evaluation of brain tumors involving the motor system, Parmar H et al, 551
Tumor, gastrointestinal stromal
CT imaging of gastrointestinal stromal tumors with pathology correlation, Horton KM et al, 812
Pictorial essay: Imaging of gastrointestinal stromal tumors, Kim H-C et al, 596
Tumor, inferior vena cava
Case report: Positron emission tomography–CT imaging characteristics of an inferior vena cava tumor thrombus with MRI correlation, Rydberg JN et al, 517
Tumor, musculoskeletal
Combination of extremity CT angiography and abdominal imaging in patients with musculoskeletal tumors, Karcaaltincaba M et al, 273

Tumor, pancreatic intraductal papillary mucinous
Natural history of pancreatic intraductal papillary mucinous tumor of branch duct type: Follow-up study by MR cholangiopancreatography, Irie H et al, 117
Twin pregnancy
Case report: Prenatal MRI evaluation of ischemic brain lesions in the survivors of monochorionic twin pregnancies: Report of 3 cases, Righini A et al, 87

U

Ultrasonography
Evaluation of positron emission tomography with tracer 18-fluorodeoxyglucose in addition to MRI in the diagnosis of ovarian cancer in selected women after ultrasonography, Kawahara K et al, 505
Ultrasound
Local staging of rectal cancer: Assessment with double-contrast multislice CT and transrectal ultrasound, Kulinna C et al, 123
Unenhanced CT
Differentiation of adrenal adenomas from metastases with unenhanced CT, Gufler H et al, 819
Upper aerodigestive tract
High incidence of chest malignancy detected by FDG PET in patients suspected of recurrent squamous cell carcinoma of the upper aerodigestive tract, Perlow A et al, 704
Urinary diversions after cystectomy
Imaging of the various continent urinary diversions after cystectomy, Sung DJ et al, 299
Urography
Pictorial essay: CT urography with 16-channel multidetector CT: A pictorial review, Kawamoto S et al, 581
Uterine cervical carcinoma
Preoperative magnetic resonance imaging staging of uterine cervical carcinoma: Results of prospective study, Choi SH et al, 620

V

Vascular disease, collagen
Pictorial essay: Collagen vascular disease–related lung disease: High-resolution CT findings based on the pathologic classification, Tanaka N et al, 351
Vein, pulmonary
Pericardial "sleeve" recess of right inferior pulmonary vein mimicking adenopathy: CT findings, Truong MT et al, 361
Vein, superior mesenteric
MRI of bowel ischemia induced by ligation of superior mesenteric artery and vein in a cat model, Kim MY et al, 187
Velocity mapping
Time-resolved 3-dimensional velocity mapping in the thoracic aorta: Visualization of 3-directional blood flow patterns in healthy volunteers and patients, Markl M et al, 459
Velocity-encoded cine MRI
Risk factor of radiation pneumonitis: Assesssment with velocity-encoded cine MRI of pulmonary artery, Muryama S et al, 204
Vena cava tumor thrombus
Case report: Positron emission tomography–CT imaging characteristics of an inferior vena cava tumor thrombus with MRI correlation, Rydberg JN et al, 517
Vena caval thrombus
CT and MRI of inferior vena caval thrombus associated with metastasis to the kidney, Fraser ET et al, 131
Venography
Pictorial essay: Collateral pathways in thoracic central venous obstruction: Three-dimensional display using direct spiral CT venography, Kim H-C et al, 24
Venous shunts, intrahepatic portal-to-portal
Case report: Intrahepatic portal-to-portal venous shunts in cirrhosis: A potential mimic of hepatocellular carcinoma, Lutz J et al, 520
Ventricle, left
Case report: CT demonstration of lipomatous metaplasia of the left ventricle following myocardial infarction, Winer-Muram HT et al, 455
Ventricle, right
Comparision of electron beam CT with MRI in assessment of right ventricular volumes and function, Elgeti T et al, 679
Vertebral fractures
Value of multiplanar reformations (MPR) in multidetector CT (MDCT) of acute vertebral fractures: Do we still have to read the transverse images? Begemann PGC et al, 572
Vessel tracking techniques
Assessment of automatic vessel tracking techniques in preoperative planning of transluminal aortic stent graft implantation, Boll DT et al, 278
Virchow-Robin spaces
Accentuated Virchow-Robin spaces in the centrum semiovale in children with autistic disorder, Taber KH et al, 263
Visual object agnosia
Case report: Visual object agnosia and pure word alexia: Correlation of functional MRI and lesion localization, Salvan CV et al, 63
Volumetric data acquisition
Value of volumetric data acquisition in expiratory high-resolution CT of the lung, Nishino M et al, 209

X

X-ray CT
Characterization of small nodules by automatic segmentation of x-ray CT images, Tao P et al, 372
